Aspirant competitors are strongly advised to consult with the HMC Technical Working Group regarding compliance with the Technical Regulations prior to starting their investment programme. The relevant HRSA committee shall, upon submission of a MSA HMC Historic Technical Passport (hereafter referred to as a HTP) by the competitor, determine the class in which such vehicle shall race in the Championships.
- 7.2.** No car shall be permitted to race in the Championships unless the owner/competitor has a valid HTP approved by the relevant TC and is registered with the HMC.
- 7.3.** Competitors will be required to complete a HTP for every vehicle to be raced, and on which full details of engine, gearbox, suspension, lightweight panels, wheel sizes, etc. and any other information required by the HRSA, shall be recorded. Competitors will also be required to use the new type MSA SCRUTINEERING / LOGBOOK. Once a vehicle has been accepted, approved and annually reviewed by the HRSA, this book must be stamped and signed by a MSA Technical Consultant (Hereafter referred to as TC). Before a vehicle is registered for the year, the HMC shall approve the colour (which shall be of the period), condition and general appearance of the vehicle.
- 7.4.** Any competitor whose vehicle is found by the TC to differ in specification from his/her HTP and/or logbook will be requested to make the necessary changes.

This initial class allocation will be one class higher than where the relevant HRSA committee believes the car/driver combination should compete. After two events, the class will be reviewed and the car/driver combination will be placed in the correct class. The competitor will have the right to apply to have the points re-calculated to score the car in the correct class.
- 8.3.** The relevant HRSA committee shall have the right to change a competitor's class at their sole discretion at any time.
- 8.4.** Save in the case where the HRSA is of the view (at its sole discretion) that exceptional circumstances prevail, a class change to a higher class (Class A being the highest) will automatically take place, if during the same season a competitor, on any official lap at an event, whether in practice or a race, breaks his/her class time by lapping faster on any single lap at two events at different circuits.
- 8.5.** Any class change shall take effect from the next event (whether in the same season or the next).
- 8.6.** If a competitor laps faster than the immediate break time, he/she will be moved up a class immediately, either in the race following qualifying where the break-out took place or at the next race where the break-out occurred in a race and notification may be given on the spot by any committee member from the relevant HRSA committee.
- 8.7.** The relevant HRSA committee may review any class change in terms of 8.2 in its discretion on written application by the competitor, supported by good reason, after two events have passed in which the competitor has participated.

- 8.8.** A competitor may at any time apply to the relevant HRSA committee in writing with supporting documentation, to change a vehicle from a higher class to a lower class (eg from Class E to Class F). Should this class change be allowed, the competitor will immediately revert back to the original class should he/she break the new class time in qualifying or any race.
- 8.9.** All class changes shall be notified to the competitor in writing except where covered by clause 8.6 above.
- 8.10.** A competitor shall not be allowed to change a vehicle from one class to another without prior written permission of the relevant HRSA committee.
- 8.11.** Any competitor who has had his/her vehicle re-classified shall have the right, within 72 hours of being notified, to address the relevant HRSA committee in writing objecting to the re-classification.
